

NAOMI OKWEMBA

MODELING PORTFOLIO

ABOUT ME

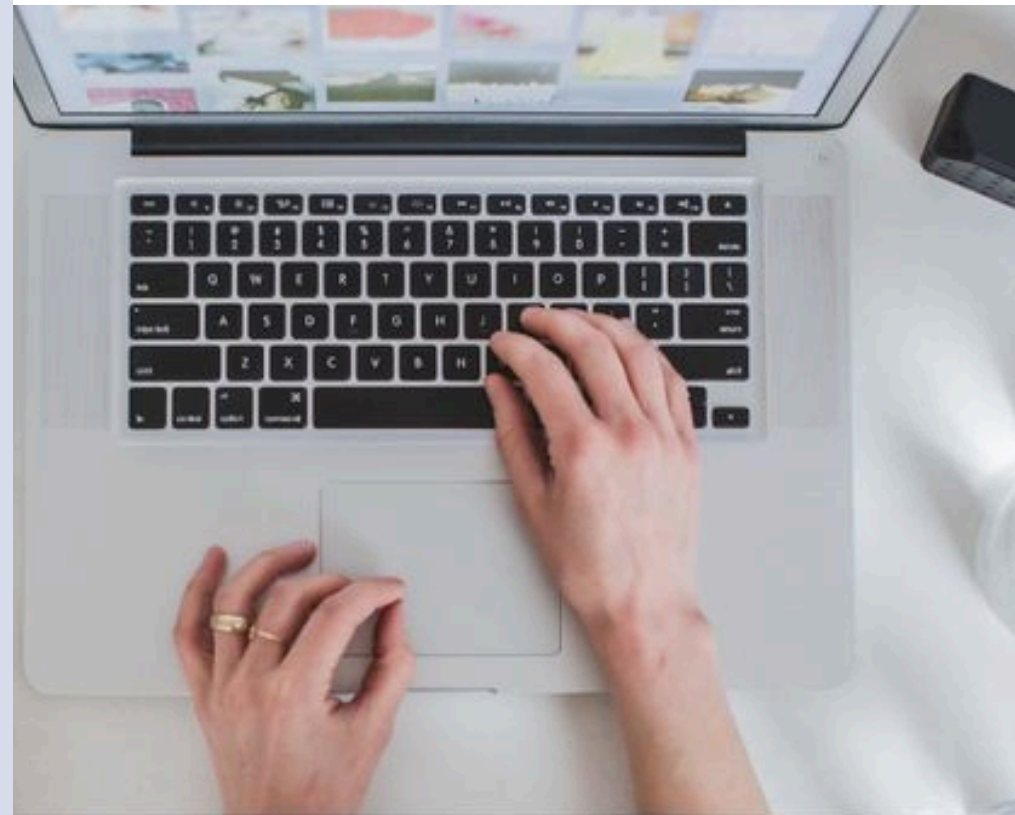

I AM A DIGITAL STRATEGIST AND TECHNICAL SPECIALIST WITH A STRONG BACKGROUND IN DATA TRANSCRIPTION, DATA ANNOTATION, AI TRAINING, ACADEMIC RESEARCH, SYSTEM ADMINISTRATION, AND CYBERSECURITY ANALYSIS

I SPECIALIZE IN CREATING DATA-DRIVEN CONTENT STRATEGIES WHILE ALSO SUPPORTING THE TECHNICAL SYSTEMS AND DATA BEHIND DIGITAL OPERATIONS. MY APPROACH COMBINES CREATIVITY, ANALYTICS, AND TECHNICAL EXPERTISE. I DON'T JUST CREATE AND MANAGE CONTENT, I ENSURE IT'S STRUCTURED, OPTIMIZED, SECURE, AND ALIGNED WITH BUSINESS GOALS

DATA ENTRY

MY SERVICES Fashion Model

- -Content and strategy
- -Data and AI
- -Technical and security

Naomi ommy

The background of the slide features a dark, low-key photograph of a person wearing a light-colored trench coat. The person's face is not visible, and their hands are partially seen, holding what appears to be a pair of glasses. The overall mood is professional and mysterious.

SKILLS

- Digital content strategy
- SEO & content planning
- Data entry and data annotation
- AI training support
- Transcription and documentation
- Academic research
- System administration
- Cybersecurity analysis
- Analytic thinking and problem solving

PORTFOLIO PROJECTS

Project 1 Digital content strategy development

I developed a structured content plan aligned with audience needs and business goals.

What I did:

- Researched target audience,
- created content topics and calendar
- optimized for SEO and engagement

Result: Improved content consistency and audience reach

PROJECT 2: Transcription & Content structuring

I converted audio content into structured written formats

What I did :

- transcribed audio files
- edited for clarity and readability
- structured content for professional use

Result: delivered high-quality, usable content documents.

PROJECT 3: Data annotation for AI training

I worked on preparing datasets for machine learning models

What I did :

- I labeled and categorized data
- Ensured accuracy and consistency
- Reviewed AI outputs

Results: Improved training data quality and model performance.

PROJECT 4: System administration and monitoring

I maintained system performance and resolved technical issues

What I did :

- **monitored system activity**
- **troubleshoot errors**
- **maintained system stability**

Result: improved system efficiency and reduced downtime

TOOL AND TECHNOLOGIES
